ALBERT EMBANKMENT FORESHORE BASE SLAB POUR

Works at our Albert Embankment Foreshore site are progressing well. We have completed excavation of our drop shaft to a final depth approximately 50m below ground.

To complete and secure the shaft, we need to construct a 3m deep reinforced concrete base slab at the bottom of the structure. To construct this slab, we will continuously pour 800m³ of concrete, ensuring a consistent quality. This will require approximately 100 concrete lorries coming to site during this time.

The pour is currently scheduled to start at **19:00** on **Friday 13 December** and we expect it to take approximately **18 hours** to complete. Due to various factors, there is potential for this date to change, in which case we will alert you closer to the time.

We continue to monitor our works in agreement with the local authority, London Borough of Lambeth.

If you require any further information or if you would like to receive invites to our community meetings for this site then please contact 08000 30 80 80 or email helpdesk@tideway.london

KEY INFO

Working hours:

- 24 hours during Weekdays
- 08:00 – 18:00 Monday to Friday
- 08:00 – 13:00 Saturday
- Base Slab Pour 19:00 Friday – 13:00 Saturday

What to expect:

- Continuous deliveries of concrete

What we will do:

- Continue to monitor noise and vibration levels
- Keep you informed of upcoming works
