Item 1	Notes for the record
<b>Applicant Reference</b>	The Panel considered information pack <b>2350-TDWAY-TTTUN-990-ZZ-ZZ-732500</b>
<b>Relevant Tideway site</b>	Hammersmith Pumping Station
<b>Decision</b>	<b>AWARDED</b>
<b>Details of the award</b>	<p>The Panel reviewed the current noise data for the site and also a short video provided by the claimants. The noise monitoring data identifies relatively high levels of noise from site activities at the noise monitoring location, although it was noted that since the 12<sup>th</sup> January 2021, the recorded noise levels had reduced significantly. The video submitted by the applicants was not particularly convincing as it was taken from the balcony and it seemed to show some relatively minor temporary construction activities.</p> <p>The recorded noise levels are such that they are likely to be borderline when considering acceptable internal noise levels for office spaces and work environments.</p> <p><b>The Panel has determined that as a very precautionary measure they award one month's access to an alternative office space with immediate effect. The costs are to be agreed with the Tideway team.</b> This award will be reviewed after one month when the Panel will require the following documentation from the Tideway team/contractor:</p> <ul style="list-style-type: none"> <li>• noise data for the period from 18/01/2021 to the date of the review meeting;</li> <li>• plan of the works;</li> </ul>

	<ul style="list-style-type: none"><li>• most recent s61 and any variations or dispensations; and</li><li>• the location plan for the closest noise monitor to the property and whether it has been relocated during the course of the works.</li></ul> <p><b><u>All awards are subject to Tideway's Guidelines for Implementation of ICP decisions.</u></b></p> <p><b><u><a href="https://www.tideway.london/media/4138/guidelines-for-implementation-of-icp-decisions_feb-2020.pdf">https://www.tideway.london/media/4138/guidelines-for-implementation-of-icp-decisions_feb-2020.pdf</a></u></b></p>
