The route

Programme highlights

- Successful completion of tunnelling. Tunnell boring machine (TBM) Annie completed the drive from Greenwich to Chambers Wharf, and TBM Selina completed journey to Abbey Mills.
- Construction approximately 80% complete across the project.
- Continued focus on secondary lining. More than 50% complete overall, and 100% complete in Central.
- Above ground works progressing two signature ventilation columns now in place – one at King George's Park and the first one on the riverside at Putney
- Installation of mechanical and electrical equipment continues across most West sites
- 5.5 million tonnes of construction and excavated material moved by river.
