In addition to the Chair, the Panel was comprised of:

08 January 2026

Graham A Parry

- Noise Specialist; and
- Medical Specialist.

The Panel:

- met via video conference to consider eight medical claims, one special claim (claimant working from home) and one from a houseboat resident asking for noise-cancelling headphones.
- These matters were all associated with Tideway works at Chambers Wharf.

The minutes for the above awards were issued within four working days of the meeting (after the Christmas shut down period).

Additional consideration was given to the extension of daily respite awards for residents living close to Tideway's Chambers Wharf site, that were due to expire at the end of December. It was decided that all existing daily respite awards would be extended to the end of March 2026 and would be for 2 days respite/week/person for qualifying family members. The respite awards will be reviewed in March 2026 to determine the impact of the cofferdam removal and whether the award should be extended.

All claimants were advised of this decision before the Christmas shut down period, via email on 22 December 2025.
